JULY 2025 REPORT

GEORGE "JODY" SWEENEY, KENT COUNTY LEVY COURT
COMMISSIONER, 5th DISTRICT

Growth. Housing growth. The lack of independent restaurants. Traffic. School student count. Healthcare services. Boy oh boy, where are we?

Kent County is experiencing a growth spurt in housing. Whether this is true or not, really is immaterial. The truth is that it "feels" like growth is happening everywhere.

Back in 2004-2008, Levy Court approved more than 60,000 new lots in subdivisions. 60,000 new homes equates to about 36,000 new students, 120,000 more people, and about 360,000 more trips per day. Fortunately, it didn't all work out. In 2008, the housing market crashed, and many of those approved lots have since dropped off. The County has a rule that if an approved property does not have any improvements in five years, the permit is pulled. I don't know the exact number that have been dropped, but it is significant. The beauty of this rule is that any new development in the same space will have to follow any new rules that are put in place.

Just in the Caesar Rodney School District, a recent inventory indicated about 4,000 lots approved. Some people assume 4 persons per home. The industry, the Governments, and professionals assume 2.6 people per home, based on the fact that many retirees without children are relocating to Delaware. 4,000 homes results in about 2,400 more students, spread across 19 schools and 13 grades, from pre-school to twelfth grade. It is still a growth factor that needs to be considered.

4,000 homes also calculates into about 24,000 trips per day in the CR school district. Anyone who has to travel Rt 13 between Rodney Village and Woodside knows how bad the traffic is, especially between 3pm and 6pm.

With both traffic and school issues, the problem is how they are resolved. Roads are not improved until AFTER traffic or accident data has already proven that the road needs improving. Schools Districts cannot expand until AFTER they are well past capacity. Then, their expansion is just enough to manage the capacity they have, and not any growth that may be coming.

There is a group that is currently reviewing things like population growth out to 2050. That is the Dover Kent Metropolitan Planning Organization. Their **Innovations 2050** details focuses on growth over the next 25 years, especially as it pertains to traffic. This is a tool that school districts, Bayhealth Medical, independent doctor offices, and many commercial entities should be following. It details demographics of age, sex, job growth, and much, much more. You can see this information at:

<https://doverkentmpo.delaware.gov/innovations2050/>

But, more than anything, you need to be involved. Be involved in understanding your State Legislators' stance on growth. Be involved in understanding your Kent County Commissioners' stance on growth. Understand their relationships with developers, the Real Estate community, and builders. Be involved in understanding school board members stance on school growth. Ask all of these if they are aware of Innovations 2050, and have they read it.

You have a voice. No government in Kent County or Delaware denies the public an opportunity to speak.

Director's Report

July 2025

Happy 4th of July from your Board of Directors. We hope yours was a rousing one.

We want to update you on a couple of our summer projects. The second shed we are placing behind the center to make it easier for our staff to retrieve materials will be completed within the first two weeks of July. The hold up right now is laying the concrete foundation the shed will sit on due to the untimely passing of the individual we hired to do the work. We have hired another person and the project should hopefully be completed by the time you read this.

We are waiting for call backs from people who can do the necessary patch work in the great room before we can repaint it. Once that is done and we get approval of a state community investment grant, we will order new chairs. We have chosen what we are going to purchase and believe you will find them to be more attractive and comfortable than the current ones.

Our Center's savings account is over \$100,000 but draws very little interest. The Board decided to take \$30,000 and put it in a six-month CD that earns a much higher interest. At the end of that time we can take the money out or let it roll over.

We have also established a working relationship with the Caesar Rodney School District. We will, starting next Spring, award a \$2,000 scholarship to a graduating CRHS senior who wishes to pursue a college degree related to programs and services for the elderly. The funds would be sent to that individuals college or university upon the successful completion of their first semester.

We are also working with the district to establish a program whereby volunteers from the Center will get the opportunity to help teachers and students at Simpson Elementary School and perhaps at Fifer Middle School. We'll give you more details in the fall. As a non-profit we believe community involvement is an integral part of our mission and what better way to do that than working with our youth.

The district invites all of you to attend a preview performance, at no cost, of the high schools fall performance of an old classic, "Arsenic and Old Lace". The show will be held the afternoon of November 4th at a time to be determined.

Try to stay cool and, as always, we'll see you around the Center.

JACK

THANK YOU - THE MANAGEMENT

Delaware Council on Gambling Problems, Inc.

Who We Are:

The Delaware Council on Gambling Problems (DCGP) is a nonprofit 501(c)(3) health agency founded in 1979 to provide programs & services for problem gamblers and their families. We're made up of caring individuals who have real, first hand experience with problem gambling. We are gambling neutral, not for or against gambling.

The mission of the DCGP is to raise public awareness that problem gambling disorders are treatable and to facilitate the development of a network of services for problem gamblers and their families.

Problem Gambling destroys lives—but not just the lives of gamblers. Family and friends are also victims of problem gambling. Often times, people suffering with a gambling problem don't realize the impact it has on others and are incapable to stopping it themselves.

We understand that **seniors** often use gambling to fill a sense of loneliness in their lives. We can help them find other social outlets. We understand the **young people** have a hard time understanding the consequences of their risky behavior. We help them understand the casual effect of gambling.

We provide free and confidential treatment services for family members of problem gamblers. These include full clinical assessment, development of a plan of action to deal with difficulties caused by problem gambling, and participation in 12--techniques for long term recovery.

Living with a problem gambler can be extremely difficult. The Delaware Council on Gambling can help you find stability in a chaotic situation.

Laughter Is The Best Medicine

After she misplaced and hunted for her keys for the 5th time in the same day, Patty was finally ready to go out to dinner with her husband. On the way out the door, she commented, "Sometimes, I really think I've lost my mind."

"It wouldn't surprise me," muttered her husband.

"What did you just say?" asked Patty, outraged.

"I said it wouldn't surprise me—you've given me a piece of it every day for the past 40 years now!"

That's When The Fight Started!!
