*From Your Executive Director
Tom Bones*

As we wave good-bye to the Summer of 2020 we have a lot to look forward to as Fall will be upon us in 3 short weeks on September 22nd. I hope everyone is continuing to stay safe and still following the CDC guidelines for Covid-19.

We have started a brand new Virtual Social Platform! We are in the process of testing out some new and fun ways to reach out to our members virtually so we can call be safe. The first on our list is an audio one. This platform has a weekly calendar, trivia, bingo and group chats on different topics.

Please check it out and let us know what you think! Simply log onto Highway61.co which is an audio platform that empowers those of us over 50 to engage, learn and support each other. In order to take full advantage of this, please do the following:

- Make sure your laptop or computer has access to a built in microphone. (If your computer has a camera, it will have a mic.)
- Please use CHROME to log on if you are using a computer. Please use SAFARI if you are using an iphone or ipad to access the site.
- When you click, join it will prompt you to allow Highway61.co to use your microphone.

If you have any questions, please call or e-mail us here at The Harvest Years.

During the month, we hope to dedicate our flagpole project on Friday, September 18th, which is POW/MIA Recognition Day.

We have spoken to Pat, our hair stylist. She would like to thank everyone that reached out to her during the recent loss of her husband Richard. She was very moved. We hope that Pat will be back with us in September. I am also saddened to announce a loss of another one of our Harvest Years team members, Grace Zandler. Grace was part of our Shopping Program for over 20 years. She will be missed. We sent our heartfelt condolences to her husband Ron and their family.

Please continue to stay safe, TOM

9/11 19th ANNIVERSARY

It is hard to believe that it has been 19 years since the devastating attacks on the World Trade Center Towers, the Pentagon in Washington, DC and the crash of Flight #93 in the fields of Shanksville, Pennsylvania. The United States of America has never seen such devastation since the Pearl Harbor attack in Hawaii, by the Japanese, on December 7, 1941.

There were many heroes on 9/11. Too many to count. Some survived, others lost their lives trying to save others, and most perished just going to work as they did normally each day of the week. ***This day was not normal!***

There are never enough words of praise or to give thanks to all those who gave so much, including our furry four-legged heroes. Over the years our military forces have relied on dogs and horses to work with their handlers in times of crisis. On 9/11 dogs were used to sniff out survivors and/or bodies from the burnt charred rubble of the collapsed buildings.

In this issue of our 'special edition' monthly Newsletter I proudly pay tribute to two rescue dogs who knew no fear in their abilities to search the rubble of the fallen towers.

Read their stories. Riley and Jake are true heroes and they should never be forgotten for the dangerous work they did during very difficult times in American history.

9/11 Hero Dog

Riley

Riley is one of the most famous dogs of Sept. 11 because of a photo taken of him at the World Trade Center site a few days after the attacks. In the photo, Riley is in a basket being sent over a 60-foot-deep canyon to search the rubble of the North Tower. "Normally when we send a dog, the handler goes with him," said Riley's trainer, Chris Selfridge. "This time we decided it was more practical to just send the dog."

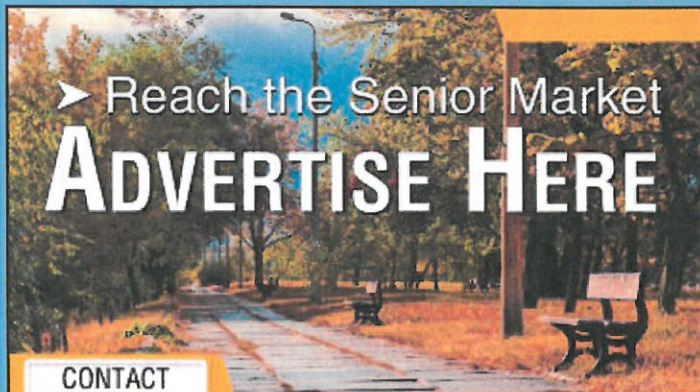

From Chris Selfridge, "On 2/26/10, Riley passed away. He was our family pet, my friend and partner. Riley was 13 in November. He lived a good life and taught me many lessons during his time with me. He will be greatly missed. I love you Bub!"

9/11 Hero Dog Jake

Jake was a 9/11 Hero Dog as well as a Katrina Hero. This beautiful black lab that "became a national canine hero after burrowing through white-hot, smoking debris in search of survivors at the World Trade Center site" 9/11 terrorist attack as well as searched through storm torn Mississippi areas.

His story is an amazing one, from a injured 10-month-old disabled puppy -- abandoned on a street with a broken leg and a dislocated hip to a renowned rescue and therapy dog, Jake overcame great odd to rise to the top.

Owner Mary Flood had Jake put to sleep in July of '07 after a last stroll through the fields and a dip in the creek near their home in Oakley, Utah. He was in too much pain at the end, shaking with a 105-degree fever as he lay on the lawn.

After Hurricane Katrina, Flood and Jake drove 30 hours from Utah to Mississippi, where they searched through the rubble of flooded homes in search of survivors.

In his later years, Jake helped train younger dogs and their handlers across the country. Jake showed other dogs how to track scents, even in the snow, and how to look up if the scent was in a tree. He also did therapy work with children at a Utah camp for burn victims and at senior homes and hospitals.

"He was a great morale booster wherever he went," says Flood. "He believed that his cup was always full, never half-full. He was always ready to work, eager to play -- and a master at helping himself to any unattended food items."

Lower Out of Pocket Insulin Costs
For Medicare's Seniors in 2021

The Centers for Medicare & Medicaid Services (CMS) announced standalone Medicare Part D prescription drug plans and Medicare Advantage plans with prescription drug coverage have applied to offer lower insulin costs through the Part D Senior Savings Model for the 2021 plan year. Across the nation, participating enhanced Part D prescription drug plans will provide Medicare beneficiaries access to a broad set of insulins at a maximum \$35 copay for a month's supply, from the beginning of the year through the Part D coverage gap. The model follows on the Trump Administration's previously announced 13.5 percent decline in the average monthly basic Part D premium since 2017 to the lowest level in seven years.

CMS is enabling and encouraging Part D plans to offer fixed, predictable copays for beneficiaries rather than leaving seniors paying 25 percent of the drug's cost in the coverage gap. Both manufacturers and Part D sponsors responded to this market-based solution in force and seniors that use insulin will reap the benefits.

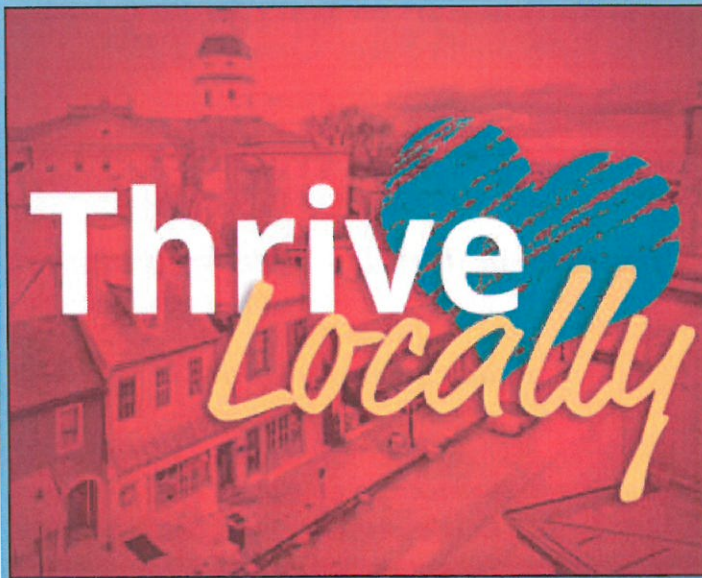

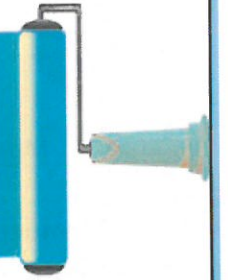

For more information the Part D Senior Savings Model
can be viewed at:
