February will also kick off **Tax season**. **AARP** will be here once again with the **Tax Assistance Program**. This service is available to our seniors to help you with all of your filing needs. We are taking appointments for Tuesdays and Thursdays, from 9 AM - 12 Noon beginning February 2nd and continuing through April 13th. **This service is by appointment ONLY**. Lastly, our **Annual Giving Campaign** has wrapped up for 2022 and I am so pleased to say that it was a huge success. Please join me in sincerely thanking all of our neighbors, friends and family members throughout the Camden/Wyoming community and beyond for all of their generous support. Thank You equally as much to our members who also generously contributed. Your continued generosity throughout the years is deeply appreciated. ### Zoning Ordinances

Did you know, it has been 50 years since the first Zoning Ordinances enacted by Kent County Levy Court? For all of you who stand on the principle that it is your property and you should be able to do what you want with it, I generally agree, except when it impacts your neighbor's quality of life or their home's value. Now switch that around to how you don't want YOUR neighbor to impact YOUR quality of life or YOUR home value.

Kent County Ordinances are designed to ensure that the right type of construction is done in the right places, and that infrastructure of schools, roads, water, sewer, storm water management, and paramedic services are available. Zoning ordinances ensure that density of residences, commercial, and manufacturing does not impact on that infrastructure or traffic conditions, and that the government is trying to maintain the beautiful heritage of our county.

In January, 2023, Kent County is reviewing its first massive overhaul of Zoning Ordinances in 50 years. Zoning is very complicated governance, so not every part of the code is being changed. And no matter what changes are made with this overhaul, as we have done for the last 50 years, minor changes can be made at any time to ensure we are doing right by the residents of Kent County.

In the upcoming overhaul, you will see some modernization that will address telecommunications towers to improve broadband access and addressing solar and wind power installations. Some obsolete zoning uses will be eliminated or merged together to make the code easier to navigate.

There will also be regulations that are very similar grouped together to simplify the code. There will be a chart that provides very easy access to see what types of uses are available in each zoning category.

Kent County has a Board of Adjustment that is an appeals board for denied zoning applications. Over the years, these appeals have been tracked and those with the highest number of approvals will be integrated into the new ordinances. These are such things as setbacks from roadways and wetlands, accessory buildings, and impervious cover. Finally, typos, redundancies, and conflicts are being removed to the best of our ability.

Some areas that are not being addressed are signage and parking, historic preservation, cluster development design, and airport zones. It isn't that these are not important, just that they are very well covered in existing zoning laws.

Originally, these zoning changes were scheduled to be reviewed in December. But, after many months of public workshops and cursory reviews by Commissioners, it was decided to delay the public meeting for a few months to give commissioners a chance to complete their review. Personally, I have a few issues with some of the wordage, and hope to get some changes.

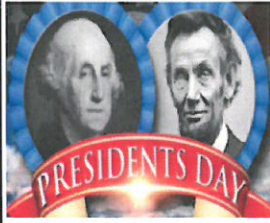

In the coming months, I will write subsequent articles with more details.

My message today is that your Levy Court Commissioners are working hard to balance residential, commercial, and infrastructure to ensure a good quality of life for all Kent Countians.
